EDUCATION

- B V Raju Institute of Technology** Narsapur, Telangana
Bachelor of Technology - Computer Science and Engineering; CGPA: 8.81
2023 - 2027
- Shree Akshaya Junior College** Sangareddy, Telangana
Intermediate - MPC; Percentage : 97.2%
2021 - 2023

SKILLS SUMMARY

Languages	C, Python, Java, JavaScript, SQL, C++ (Basics).
Libraries	Pandas, NumPy, Matplotlib, Seaborn.
Web Technologies	HTML, CSS, ReactJS, Tailwind CSS.
Tools	Git, GitHub, VS Code, Jupyter Notebook.
Platforms	Vercel, MySQL.
Soft Skills	Teamwork, Problem Solving, Responsibility, Time Management, Communication.

EXPERIENCE

- GDG on Campus** BVRIT Narsapur, Telangana
Role: PR Co-Lead
Nov 2025 - Present
 - Events & Sessions:** Conducted workshops and hackathons on web, cloud, and AI.
 - Peer Learning:** Led study jams and coding meetups to build community learning.
 - Mentorship & Outreach:** Mentored projects and connected students with the GDG network.

PROJECTS

- YOLO-Powered Smart Drone Surveillance for Emergency Rescue:** Built an autonomous UAV-based search and rescue system using YOLOv8 and optical flow for real-time survivor detection, false-positive reduction, and Gaussian heatmap-based rescue zone prioritization.
Tech: Python, YOLOv8, OpenCV, Optical Flow, TensorFlow, PyTorch, Computer Vision (*GitHub*)
- Heart Disease Prediction using Machine Learning:** Developed a machine learning web application to predict heart disease risk using clinical data. Implemented data preprocessing, feature engineering, model training, and evaluation, and deployed the solution using Streamlit for real-time interactive predictions.
Tech: Python, Scikit-learn, Pandas, NumPy, Streamlit, Matplotlib (*Live Demo*)
- Smart Citizen Engagement Platform with Machine Learning Integration(Ongoing):** Developing a full-stack civic issue reporting platform with real-time notifications and an integrated AI/ML microservice for automated complaint categorization and prioritization; includes citizen dashboard, admin panel, and public transparency portal.
Tech: React, TypeScript, Tailwind CSS, Node.js, Express, MySQL, FastAPI, HuggingFace Transformers
- Event Ticket Booking System:** Developed a web application to streamline event discovery, booking, and management for users and organizers. Focused on backend development using Java and MySQL to ensure secure data handling and efficient processing.
Tech: Java, MySQL, HTML, CSS, JavaScript (*GitHub*)

HACKATHONS & CONFERENCES

- Research Paper Published in IEEE Xplore:** "YOLO-Powered Deep Learning Framework for Smart Drone Surveillance in Emergency Rescue Operation", presented at the 6th International Conference on Inventive Research in Computing Applications (ICIRCA 2025).
- 4hr Hackathon @ BVRIT:** Built an MVP of the BVRIT Connect platform within 4 hours, contributing as a Full-Stack Developer and implementing core features including mentorship, events, and alumni- student networking.
Tech: Firebase, JavaScript, HTML, CSS

ACHIEVEMENTS

- R&D Showcase 2025:** Awarded First Prize for developing 'Smart Drone Surveillance' using YOLOv8-based computer vision on autonomous drones for real-time survivor detection and disaster response.

CERTIFICATIONS

- TechA Responsive Web Designing (HTML,CSS & Java Script) Foundation Certification: Infosys – 2024 *Certificate*
- Programming in Java: NPTEL – 2025 *Certificate*
- Programming Essentials in C++: Cisco Networking Academy – 2024 *Certificate*
- Computer Vision 101: Infosys – 2024 *Certificate*
- AWS Essentials: A Complete Beginner's Guide: Udemy – 2025 *Certificate*
- Deloitte Australia Technology Job Simulation: Forage – 2025 *Certificate*
